

WMC Human Resources Awards 2021 Nominations Open Now!

The Wood Manufacturing Council is pleased to announce its 2021 Human Resources Awards, honouring companies and individuals who develop and implement creative solutions and contribute to best practices in the wood manufacturing industry.

We invite people to nominate their company, customers or employees who lead the way in HR practices. The awards program was established to promote the importance of HR in our sector and give outstanding individual(s)/firms an opportunity to share their innovative ideas with other stakeholders.

The following awards will be available for nomination until April 16th, 2021:

- The WMC Award of Distinction
- The Employee Recognition Award
- The Innovation in Human Resources Award (Individual)
- The Innovation in Human Resources Award (Company)
- The WOODLINKS Success Award
- The Equity Award
- The Post-Secondary Educator Award

For companies, this is a great way to celebrate their achievements or to recognize the efforts of an individual employee. For suppliers, this is a unique way to acknowledge the good work of your clients. Self-nominations are encouraged! Take a few minutes to pay tribute and to help us recognize and share good work. Recipients will receive national exposure.

Please visit our website for nomination information and forms: www.wmc-cfb.ca/awards
